Forecast for Thursday 10 Oct 2024

Weather: Cloudy overnight with patchy rain. Then a rather cloudy start but soon becoming brighter with sunny spells developing. Then a dry and increasingly clear evening.

Chance of cloud-free hill tops above 600m: Little chance overnight becoming, soon after dawn, 75% then close to 100% in the afternoon.

Low cloud and visibility: Periods or persistent cloud overnight becoming, soon after dawn, more occasional above about 600-750m, with cloud largely rising above the summits in the afternoon. Away from cloud visibility excellent with good panoramic views of surrounding hills, falling to several kilometres in early rain.
